FORWARD

This is our initial attempt to make the States Projects Priority List available in a printed publication. This list is to be used only as a guide and the respective EPA Region should be contacted for verification of any data elements.

To reduce the time frame for publication, the list although checked, cannot be certified accurate. We wish to thank the Grants Information Control System staff in the Regions and at Headquarters for their expeditions effort.

The publication of this list was required by the many requests that were received for this material and the requirement that this information be made public with a minimum delay; this has been accomplished with some sacrifice in accuracy and having a "polished" publication. Distribution to the public "on a cost recovery" basis will be accomplished thru the:

National Technical Information Services
United States Department of Commerce
Springfield, Virginia 22161

Comments and corrections should be directed to Grants Information Branch (PM-216), (202) 755-2513, Paul Wagner, Don Thie or Julius Sabo at 755-2830.
